Risk Assessment & Safety Evaluation

Group Name	Luggage rover team 37
Point of Contact	Matthew Bomer
Email	matthew.bomer@tamu.edu
Description of Activity	Demoing the rovers obstacle avoidance, tracking features and app interface.
Rules for Exhibit	Keeping onlookers several away from the rover unless they're being guided by us.
Description of Safety Precautions	Onlookers must keep away from the rover unless given permission by us. The rover will be tethered to keep it from running away.
Description of Mitigation Plan (*What will you do in the event of an incident*?)	A team member will notify staff about any injury that occurs. If the rover exhibits unexpected behavior it will be turned off. The tether should keep the rover from taking off.
